

## REMARKS

By the foregoing Amendment, Claims 1, 6, 9, 11 and 12 have been amended.

Favorable reconsideration of the application is respectfully requested.

Claims 1, 4, 6, and 9-12 were rejected under 35 U.S.C. 112, second paragraph on the grounds of indefiniteness. The Examiner required the independent claims to "bring out" that the dual receiver is "a single body unit," but it is respectfully submitted that such a term was not used in the description or claims originally filed, and it is believed that this would be an unsupported limitation in the claims. Claims 1 and 6 recite "a receiver body," and Claims 9 and 12 have been amended to likewise recite "a receiver body." Since the reason for the Examiner's requirement of recitation of "a single body unit" is not clear, it is believed that recitation of "a receiver body" as disclosed in the application should be sufficiently definite for purposes of 35 U.S.C. 112, second paragraph.

It is believed that the independent claims have been amended to meet the further recitations required by the Examiner, so that it is believed that the rejection of Claims 1, 4, 6 and 9-12 can now be withdrawn. The Examiner is encouraged to telephone the undersigned to discuss any further indefiniteness in the claims, in order to place the application in condition for allowance.

Referring particularly to Claims 4, 10 and 12, as is described in the specification at page 4, lines 13-16, the present invention provides for a dual valve receiver, a sensor, and a vent which together offer a means of refueling vehicles with an automatic shutoff nozzle, without pressurizing the fuel tank of the vehicle and without the risk of

overfilling the fuel tank. It is therefore respectfully submitted that the present invention as claimed is novel and inventive over the prior art.

In light of the foregoing amendments and remarks, it is respectfully submitted that the application should now be in condition for allowance, and an early favorable action in this regard is respectfully requested.

Respectfully submitted,

FULWIDER PATTON LEE & UTECHT, LLP
